Proven to be the most successful solution for terminals of all sizes

Why should any terminal miss out on a full Terminal Operating System (TOS) on the cloud? Every terminal big or small needs a reliable TOS to power their operations. Try out the TOPS Cloud solution following the pay-as-you-go model to allow massive cost savings with absolutely zero upfront license costs. Terminals of all sizes are guaranteed instant results with this new infrastructure, which contributes to higher revenues while lowering costs. TOPS Expert Cloud is the first TOS fully operational on the cloud, being the first to follow a true cloud architecture. Unlike most other TOS that claim to run on the cloud, TOPS Expert Cloud is the first of its kind to have the ability to operate completely through a web browser.

Why TOPS Cloud?

ZERO License Costs

Pay-as-you-go, as there is no capital expenditure since we host our TOS in the Cloud.

ZERO Infrastructure & IT Costs

Scalable, secure and risk-free. As your business grows, we automatically update your infrastructure worry-free.

ZERO Installation Costs

Let us handle the quick installation and start experiencing the benefits of TOPS Expert Cloud.

TOPX

- ✔ Vessel Management
- ✔ Yard Management
- ✔ Berth Planning
- ✔ CHE Strategy (Optimization)
- ✔ Report & Statistics
- ✔ Rail Management
- ✔ Vessel Editor
- ✔ Equipment Control
- ✔ Truck Management

Benefits of the Cloud

Lower Cost

Extremely affordable due to no infrastructure CAPEX in the lack of servers, hardware, maintenance, and support required when moving to a cloud-based software.

Seamless Integration & Rapid Deployment

Reduce implementation time by switching to a Cloud-based software, with minimal training and setting up required.

Easily Scalable for Business Growth

The pay-as-you-go structure allows users the flexibility to increase infrastructure capacity relative to their level of growth, achieving economies of scale.

Anywhere, Anytime Access

Users are granted access to view and manage data from anywhere at any time on any device as long as an internet connection is present.

Seamless Updates

With the Cloud, RBS can provide customers with new updates when there is a new feature at no additional cost.

Efficient Disaster Recovery

Your data remains safe and secure as it is continuously backed up on out AWS servers, so in the event of a disaster, your data can be retrieved from our servers.

MORE Benefits of the Cloud

Proven TOS Solution

This cloud software is based on our proven TOPS Expert solution used to operate numerous terminals around the world to produce real results.

Reliable Customer Service

Our trustworthy team at RBS will be with you every step of the way, providing 24/7 support and maintenance.

Lower Risk

The lower costs of adoption and no lock-in contract, cloud computing reduces the risk expense for your business.

Reduce Environmental Impact

Cloud computing reduces the number of data centres worldwide, having less impact on the environment.

Increased Control

The sophisticated software operates on a private cloud, providing maximum control by tracking every movement of a container through a marine terminal and allowing customers to choose the resources they utilize.

Data is Safe & Secure

The combination of strict ISO standards, policies, firewalls, compliance requirements, and control activities enforced by both RBS and the cloud service provider enhances information security and encryption to keep your data away from harm.

And many more benefits...
